Sir:

**TERMINAL DISCLAIMER TO OBVIATE A  
DOUBLE PATENTING REJECTION OVER A PRIOR PATENT**

The owner of one hundred percent (100%) interest in the above-identified application is Ward-Kraft, Inc. ("Assignee"), 2401 Cooper Street, Fort Scott, Kansas 66701, and the undersigned has been authorized by Assignee to sign on Assignee's behalf.

An assignment of the above-identified application from the inventor, JESSE D. CRUM, was made to Assignee, and such assignment was recorded at Reel 013556, Frames 0189 on December 5, 2002.

Assignee hereby disclaims, except as provided below, the terminal part of the statutory term of any patent granted on the above-identified application which would extend beyond the expiration date of the full statutory term of prior Patent No. 6,773,181 ("the '181 patent"), as the term of said prior patent is presently shortened by any terminal disclaimer. Assignee hereby agrees that any patent so granted on the above-identified application shall be enforceable only for and during such period that it and the '181 patent are commonly owned.

This agreement is to run with any patent granted on the above-identified application and is to be binding upon the grantee, its successors or assigns.

Assignee does not disclaim any terminal part of any patent granted on the above-identified application that would extend to the expiration date of the full statutory term of the '181 patent (as presently shortened by any terminal disclaimer) in the event that the '181 patent later: expires for failure to pay a maintenance fee, is held unenforceable, is found invalid by a court of competent jurisdiction, is statutorily disclaimed in whole or terminally disclaimed under 37 CFR Section 1.321, has all claims canceled by a reexamination certificate, is reissued, or is otherwise terminated prior to expiration of its statutory term (as presently shortened by any terminal disclaimer).

The undersigned hereby declares that all statements made herein of his own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.

A check in the amount of \$65.00 is enclosed.

Respectfully submitted
